#### MUD IN WINTER. DUST IN SUMMER.

A STEEP AND DIRTY ROADWAY.

Vigorous Complaint Over the Condition of Nineteenth Street-Creaking Carts Shatter the Nerves of Residents.

Mrs. W. H. Hilliard, of 2100 Nineteenth Street northwest, in a letter to the Commissioners, has given expression to the woes of unrequited patience. She and her family have waited long, and endured much while waiting, for the march of public improvement to pass her door. She declares that it is time something was done to improve the grade and to surface the roadway on Nineleenth Street, be yond Columbia Road,

Mrs. Hilliard states that their home was bought more than two years ago in the full expectation that the street would be improved soon. She says they have waited and made no complaint, until patience has ceased to be a virtue. She says the street was paved to Columbia Road more than a year ago. Their house is a little beyond Columbia Road, where the improvements are visible, but where they serve no practical end, so far as 2100

Complaint is made that they have reeking mud in winter and blinding dust in When friends drive out from the city to call, Mrs Hilliard says, they are obliged to stop at Kalorama Avenue and walk up the steep hill, owing to the grade in front of the nouse. She complains of the having of dirt part the house, and declares that the creaking of the noisy carts drives her nearly crazy. Had to Send . atlent Away.

Mrs. Hilliard reiers to the illness of a member of the family last spring, when it became recessary, on account of the noise of hauling dirt, to send the patient away from home to a quiet place elsewhere.

The Commissioners are asked to use their best endeavors to give the residents of that part of Nineteenth Street relief from present conditions. C. B. Hunt, the Computing Engineer.

has submitted a statement relative to the complaint of Mrs. Hilliard, in which he says that the street was improved several years ago by the laying of bluestone curb and the construction of a gravelly read. This improvement has deteriorated during the years it has been in use, but is still, he tainks, in fair condition.

Mr. Hunt reminds the Commissioners that the roadway could not be paved ex-

cept through a special appropriation for the purgose, the estimates for which have been submitted. He advises that Mrs. Hillard be informed that nothing can be done immediately, but that consideration will be given to her statement in the preparation of the next estimates sent to

#### The New Beach Driveway.

Beach Driveway" is the name given to the principal roadway through Rock Creek Park. This appellation was bestowed by the Board of Control at its last meeting out of compliment to Capt. Lansing H Beach, until recently the Engineer Commissioner of the District

missioner of the District.

In the line of duty, as the executive officer of the Board of Control, Captain Beach inaugurated the chief improvements of the park. He supervised the plans for the construction of the driveway which now bears his name. His interest in building up the reservation was unflagging, and Rock Creek Park in future years will by a monument to the devotion of the Comvissioner.

The "Beach Driveway" extends along the bank of Rock Creek, following its course from Klingle Road to the Military Road. It is about three miles long, and was recently mendamined throughout its entire length. With the exception of about

entire length. With the exception of about 1,500 feet south of the Pierce Mill Road, this driveway was constructed and surfaced under the supervision of Captain

women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought

of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.
